Experience

Asana

Product Designer

July 2020 – Present

Currently leading design on the Automation team, building features that empower teams to automate their workflows with a simple, no-code interface. Led the end-to-end design of Task Templates in Asana.

Product Design Intern

June 2019 – December 2019

Worked through product problems from opportunity to execution to ship iterations of key features such as Asana Rules and Forms.

eBay

Product Design Intern

May 2018 – August 2018

Designed and led user tests for improved experiences of browsing and comparing listings on the eBay mobile app. Explored new concepts for surfacing recommended listings within the Fashion vertical.

CMU HCI Institute

Research Assistant

August 2018 – May 2019

Explored novel, gamified interactions for training AI systems. Designed and helped to implement tasks as Unity environments for use in user research.
